

What to Do In Palm Springs This Summer

GOLF every day of the week at the Desert Golf Course, located at the west end of Amado Road. Open 8:00 a. m. to 6:00 p. m.

BOWLING six nights a week at the air-conditioned Palm Springs Bowling Academy.

POOL, BILLIARDS, SNOOKER at the Cue Club and Pioneer Club on East Andreas Road.

HORSE SHOES, CROQUET, PING PONG on the public recreation grounds at the Field Club. Open every day and evening.

SWIMMING every afternoon at the Racquet Club, open to the public. Children 1:30 to 3:30 p. m., adults 3:30 to 8:00 p. m. Nominal charge.

SOFTBALL nearly every night at the Field Club. See schedule of games on inside page.

Omlin Appointed Fire Chief at Army Hospital

To afford the utmost protection for patients, buildings and equipment against the ravages of fire, a modern fire department is being organized at the Torney Army General Hospital, with Joe Omlin, a resident of Palm Springs for many years, as fire chief.

Comprising more than 80 buildings when completed, the hospital will be a sizable little city in itself. For this reason, together with the need for positive protection for the many sick and injured soldiers confined in the hospital, the fire department will have the very latest in efficient, modern fire fighting apparatus. Omlin will have a crew of more than 20 trained firemen under him.

Omlin is an experienced fire fighter. He helped to organize the Palm Springs fire department and served as its first chief. He was highly recommended for the job by Fire Chief Bill Leoncio of this city and by others.

Donations Asked For Service Men's Recreation Program

Contributions to the Palm Springs War Chest fund have fallen off considerably during the last few weeks, it is reported by John Chaffey, chairman of the War Recreation Council.

Sanctioned by the city and conducted by the War Recreation Council, the War Chest fund was formed for the purpose of financing all local recreational programs for the exclusive enjoyment of service men. The money in the fund is used to carry on the work of the American Legion Dugout and the USO hospitality center, to keep the Field Club activities for service men going; and part of the fund goes to the national USO.

More money is still needed, according to Chaffey, as it will require a considerable sum to keep these programs going throughout the summer. Donations of one dollar, five dollars, ten dollars or more will all be appreciated and will all help in this worthwhile work.

Checks should be made payable to the CITY OF PALM SPRINGS WAR CHEST FUND and can be mailed to City Clerk Robert Peterson at the city hall, or to Melba Bennett, treasurer of the War Recreation Council.

The fund is administered by the city and money therein can only be spent after approval of the city council for each expenditure.

Father of Mrs. Francis Crocker Dies Thursday

Death came Thursday, July 16, to Herman George Wilson, father of Mrs. Francis Crocker. The deceased was 76 years of age and died at Riverside. He is survived by his widow, Mrs. Katy Wilson and two daughters, Mrs. Crocker and Miss Eleanor Wilson of Visalia.

Funeral services will be conducted in the All Saints Episcopal church at Riverside on Saturday, July 18, at 11 a. m., Rev. Henry Clark Smith officiating. Cremation will follow at Evergreen cemetery.

Death Smites Pioneer Indian In His Sleep

A pioneer Indian resident of Palm Springs and a familiar village character, Ramon Manuel, better known as "Old Ramon," passed away here early last Saturday evening, July 11, in his sleep. He had been in ill health for many years, and was 58 years old at the time of his death.

A friend had driven Ramon to Banning earlier in the day so the distinguished looking old Indian could have some dental work done. When they returned that evening, Ramon was tired from the trip and went to sleep in the car. A heart attack came while he was asleep, and Ramon's spirit crept quietly away to the happy hunting grounds. Death came at about eight o'clock.

Colorful Figure

A full-blooded Indian, old Ramon was a colorful figure with his 10-gallon Stetson hat and cane, looking like a part of the romantic old West.

The son of Manuel Dias, who planted the old vineyard behind the Indian bath house, Ramon Manuel was born in Palm Springs in 1884. In those days pure-blooded Indians had only one given name, the first name, and thus it was that Ramon did not have the same last name as his father. His father had only assumed the last name of Dias because he liked it, his real blood name being that of Manuel.

Attending elementary school here and the St. Boniface Indian School at Banning, Ramon spent his entire life in Palm Springs. In his younger years before he was overtaken by ill health, he worked for the late P. T. Stevens and also for Mrs. Nellie Coffman. Back in the 20s Ramon managed the Indian bath house.

On Tribal Committee

A large man and one of the real pioneer Indians of the Agua Caliente group, Ramon Manuel represented the local Indians many times in correspondence with Washington, and he served on the tribal committee at various times. He spoke very good English.

His property, sometimes referred to as the Ramon Camp, is located just south of Andreas Road behind the Palm Springs Produce Co.

A large number of Indians from surrounding reservations came here for the customary native Indian ceremonial wake Monday night and for the church funeral early the next morning. Native rituals and chants went on all Monday night in the tribe's ceremonial house.

A number of white friends of the old Indian also attended the funeral services at 8:30 Tuesday morning in the little Indian Catholic church on the reservation. Requiem mass was said by Father. (Continued on Last Page)

Railroad Official Frowns on Proposal Of Station Change

When he telephoned the executive secretary of the Chamber of Commerce Wednesday, George B. Hanson, general passenger agent for the Southern Pacific Railroad, definitely ruled out Tom Lipps' recent proposal that Palm Springs station be removed from its present site and located at Garnet.

Talking from Los Angeles, Hanson told Secretary Chaffey that in view of the present condition of priorities and the difficulty of getting materials, together with the changes that would be necessary at Garnet before that depot could be used for the loading and unloading of passengers, it would be practically impossible to make Garnet the official Palm Springs station during the duration. The passenger agent said he doubted his railroad would give serious consideration to the proposed change as it is impractical from a railroad standpoint.

The idea of making Garnet the official Palm Springs railroad station was suggested by Tom Lipps at a Chamber of Commerce board meeting in June. At that time the chamber directors did not react favorably to the proposal.

Keeps Pershing Name Alive In Army

A nephew of the illustrious General John J. Pershing, the handsome officer above is Major Frank E. Pershing, Palm Springs city councilman, civic leader and co-owner of the swank Town House here, who recently re-entered the army to help keep the name of Pershing alive in that branch of the service.

Entering the army as a private during World War I, Pershing was a captain when he received his honorable discharge at the close of the war. Soon after the United States became involved in World War II, Pershing sought again to serve his country in its armed forces. Last week his commission as major in the ordnance department arrived from Washington with orders to report July 20 at the Wingate Ordnance Depot, Gallup, N. M.—Photo by Phil Kasper.

Plan USO Program In Idyllwild; Other Activities

By NANCY MacNAUGHT

Beginning Saturday, July 18, a week of fun will start at Idyllwild. Barbecues, rides, dances and a real old Wild West Show will be the main activities supported by many others.

Since next week is USO week, Idyllwild is celebrating by having a carnival, proceeds of which will be turned over to the national organization. Mrs. C. S. Henderson of Palm Springs is chairman of the local USO board and is planning events, organizing committees, and doing everything in order that the big event might be a success.

One hundred men from Camp Young will be guests over the weekend of the 25th and they will be welcomed by a junior hostess committee. Colonel W. C. Konk of Desert Center and Captain Van Buskirk, recreation morale department, made arrangements for the boys to enjoy the fun.

Program

Program of the week is as follows: Starting Saturday, June 18, will be a carnival dance at the Inn. On the 19th the Ryan Field Glee Club and Paul Brown will be guests on the Campfire Program. On the 20th, for those who like riding, there will be a steak ride. On the 21st, an old-fashioned hay ride and watermelon feed will start at five. The 22nd offers a family dinner at the Inn, followed by a mixed bridge party and games. On the 23rd there is a bridge party and on the night of

(Continued on Last Page)

Guardsmen Home On Furlough

Two Palm Springs men who are on active duty with the California State Guard were home on furlough this week. They had a week off.

They are Lieut. C. V. Knupp and Sgt. Tom Humphrey, both of whom are stationed on the desert near Earp, where they are part of a detachment detailed to guard the Colorado River aqueduct.

Lieut. Knupp spent part of his leave at the beach with his wife and children.

Hospital Payroll Now \$25,000 Per Week

A lot has been said about the immense size of the new Torney Army General Hospital, now in course of construction in Palm Springs; and the pro and con views of its ultimate effect on the community have oft been discussed. But just what the huge project actually means right now to this city in a concrete business may was revealed this week by J. A. Wallace, superintendent here for the J. & B. Construction Co. of Los Angeles.

600 WORKMEN

According to Wallace, the civilian payroll on the hospital construction job, which includes the payrolls of the J. & B. company and several sub-contractors, amounts to more than \$25,000 per week in the aggregate. This alone is considered a large payroll for a small city the size of Palm Springs, and it doesn't include the pay of officers, enlisted men, nurses, gardeners and others at the hospital who are on the army's payroll. The J. & B. Construction company alone now employs some 600 workmen on the project.

Beds Moved In

Outside the information concerning the magnitude of the payroll, there was little other news of importance from the hospital this week. The few other bits of news were as follows:

The first two big hospital units were finally completed this week and many of the beds moved in. These were converted from two wings of the former El Mirador Hotel.

Progress is being made in the development of the olive grove on Tamarisk Road, which will comprise a major portion of the completed hospital. A huge power scraper went to work Wednesday and foundations are going in this week.

The J. & B. Construction Company has negotiated an agreement for the use of the Redfield property on Tamarisk Road, which is a three-acre piece of land with a wall around it at the corner of Avenida de las Palmas. The company is constructing its office building on this property, and the rest of the three acres will be used for warehousing and storage of materials. Several fire hydrants have been installed on the Redfield property as a protection for the carloads of lumber that are being piled within its concrete walls.

Heat Slows Work

Superintendent Wallace reports the heat has slowed construction somewhat due to the fact the men are less efficient in extremely hot weather.

Temperatures

Date	Max.	Min.

Todd Riveters Set World Record

With their compressed air hammers working at a speed comparable to a machine gun spraying a battlefield, a crew of riveters at the Todd Erie Basin Dry Docks, Brooklyn, N. Y., established a world's record for setting rivets in a day's working time. The crew drove 2,793 rivets in their day's work. A rival crew in the same yard on the same day set 2,745 rivets.

The total weight of the rivets used by the two crews was 1,296 pounds. Shown here is the championship crew, left to right: Evan N. Valentine, holder-on; Samuel Kryszum, helper; Lawrence Giangrosso, heater; Salvatore Avellina, reamer and Arnold Garguilo, heater. Kneeling are Thomas Fortune and Nicholas Santello, passers.

Contract Let To Glendale Firm For Buildings at Ferry Command; Work Started Yesterday

Proposed development of the new Palm Springs Airport as a first class Army Ferrying Command base began moving rapidly toward reality this week with announcement the army has let the contract for construction of numerous buildings to the Raun and Cummins building company of Glendale. Work on the project started yesterday, Thursday, and the buildings will be completed in approximately 40 days.

EVERYTHING IN TENTS

The Ferrying Command has been using the airport for several months, but up this time the administrative offices and the men have been housed in tents. Now improvement of the airport itself and the building program are both under way.

The army building program, now under way, includes several barracks for housing officers and enlisted men, a headquarters building, mess hall, operations building, small hospital, transportation garage and other lesser buildings.

The buildings are going up on 40 acres the army recently leased from Austin McManus at the east end of the new McCallum Parkway. This land is divided into two 20-acre parcels adjoining the airport property on the west. One 20-acre piece is on the north side of McCallum Parkway, the other is directly across the street on the south side of the road. Thus, when the buildings are completed, the army post will be moved from its present site on Ramon Road north to where McCallum Parkway runs into the airport.

Temporary Buildings

According to the terms of the agreement by which the army leases the new airport from the city, the buildings will be of a temporary nature and must be torn down within a reasonable period of time following the end of the war.

The R. A. Conyes Construction Co. of Los Angeles is also hard at work at the Ferrying Command base, pushing extension of runways and parking facilities of the airport. This job has been in progress for some two weeks now, and a large crew of men is engaged in the work.

Cree Takes Over Real Estate Dept. Of Plaza Office

Raymond Cree, a pioneer realtor of Palm Springs, this week took over the real estate and rentals department of the Plaza office. Major Robert Ransom was down from Santa Ana on Monday, at which time the two men came to an agreement on the subject.

Major Ransom, who recently re-entered the army air corps, retains his real estate license at the Plaza office and also retains management of the Carnell interests in Palm Springs.

Council Adjourns For Lack of Quorum

The meeting of the city council scheduled for Wednesday night of this week was not held.

There being no quorum, the meeting was adjourned to Wednesday night, July 29, at 7:30.

SPEND WEEKEND AT ARROWHEAD

Mrs. Mae Nerad and daughter, Elaine, spent last weekend at Arrowhead as guests of Mrs. Harry Harlow.

WPB Asks Aid Of Palm Springs Salvage Expert

Hearing of his successful salvage operations at the Los Angeles city dump, the Special Project Salvage Division of the War Production Board has asked Walter R. Illick of Palm Springs to make a trip East to direct some special salvage work in the vicinity of Cincinnati. He and Mrs. Illick left the village Tuesday to motor to Ohio.

Illick, who is co-chairman with Dr. J. R. Macartney of the Palm Springs salvage committee, conceived and installed the famous salvage system at the old Los Angeles city dump. His efficient and effective method of salvaging basic metals from old city dumps has received wide publicity.

One of the biggest projects the WPB has lined up for Illick is the salvaging of lead from the dirt of various skeet club grounds. It is estimated this will net thousands of pounds of the much-needed metal.

The Palm Springs man will also mine various city dumps in the East to salvage the strategic metals contained therein.

Mr. and Mrs. Illick will return to Palm Springs for the winter season about October 1.

Hillerys Spend Week in Hollywood

Looking forward to their annual vacation at the coast, Mr. and Mrs. Bill Hillery and son, Robert, will go to Hollywood Monday to spend a week.

While there they will visit Mrs. Hillery's aunts. After that they will go back to Cathedral City for another year with occasional trips to their cabin at Thomas mountain.

Ferrying Command Honors Bennetts With Surprise Party

To show their appreciation for the many things Frank and Melba Bennett are doing for the entertainment and enjoyment of service men stationed in and around Palm Springs, the enlisted men of the Army Ferrying Command camp gave a big surprise party Wednesday night for the popular couple.

Mrs. James Simonds of Redlands brought 30 girls down for the party, and the festivities started off with a bang with a cool swim in the Colonial House pool. Then the whole gang went out to Deep Well Ranch for a barbecue.

Following a delicious repast of big juicy steaks, pork and beans, orange juice, coffee and ice cream, the rest of the evening was given over to dancing. Finally, at about 11 o'clock the party broke up in order for the girls to return to Redlands.

The party was a gay affair from start to finish, and the Bennetts were surprised and justly pleased. Entire credit for the surprise party must go to Sgt. S. E. Homan, who conceived the idea, went downtown and purchased the foodstuffs, then cooked and prepared the meal and made the other necessary arrangements.

New Officer

A new officer has been stationed at the Ferrying Command base. He is Second Lieut. Francis R. Walsh, engineering officer, who arrived in Palm Springs Wednesday from Long Beach to replace Lieut. Earl Wiggins, who was recently transferred to another post. Lieut. Walsh was graduated from Mather Field in January and since that time has been a ferry pilot stationed at Long Beach.

Lieut. Garland A. Minton, adjutant, was transferred back to Long Beach this week. He has been stationed at Palm Springs Airport since April 3 of this year.

Following a brief interlude during which they were fed at Myrtle's Cafe, the Ferry Command men are now back eating at Bill Murray's. The change back to the Amado Cafe was made yesterday, Thursday, morning.

Father Dies

Called East July 2 by the death of his father, Pvt. Chad B. Roark is still away on furlough. His home is in Vicco, Kentucky.

Also away on a furlough is Pvt. Ernest E. Meadows. Meadows was injured in May when he dove into a local swimming pool, fracturing his skull when he hit the bottom. He was removed to the hospital at March Field, where he remained until July 9. He is spending his sick furlough at his home in Princeton, West Virginia.

Start Buildings

It won't be long now before the men at the Ferrying Command camp can move out of the hot tents and start sleeping in their new barracks. Work started this week on a number of buildings at the post, including barracks, headquarters building, mess hall, operations building, small hospital, transportation garage, and other lesser buildings. The new buildings will be ready for occupancy in about 40 days. Everything is now housed in tents.

Mayor Shannon and Wife Stopping at Hotel Banning

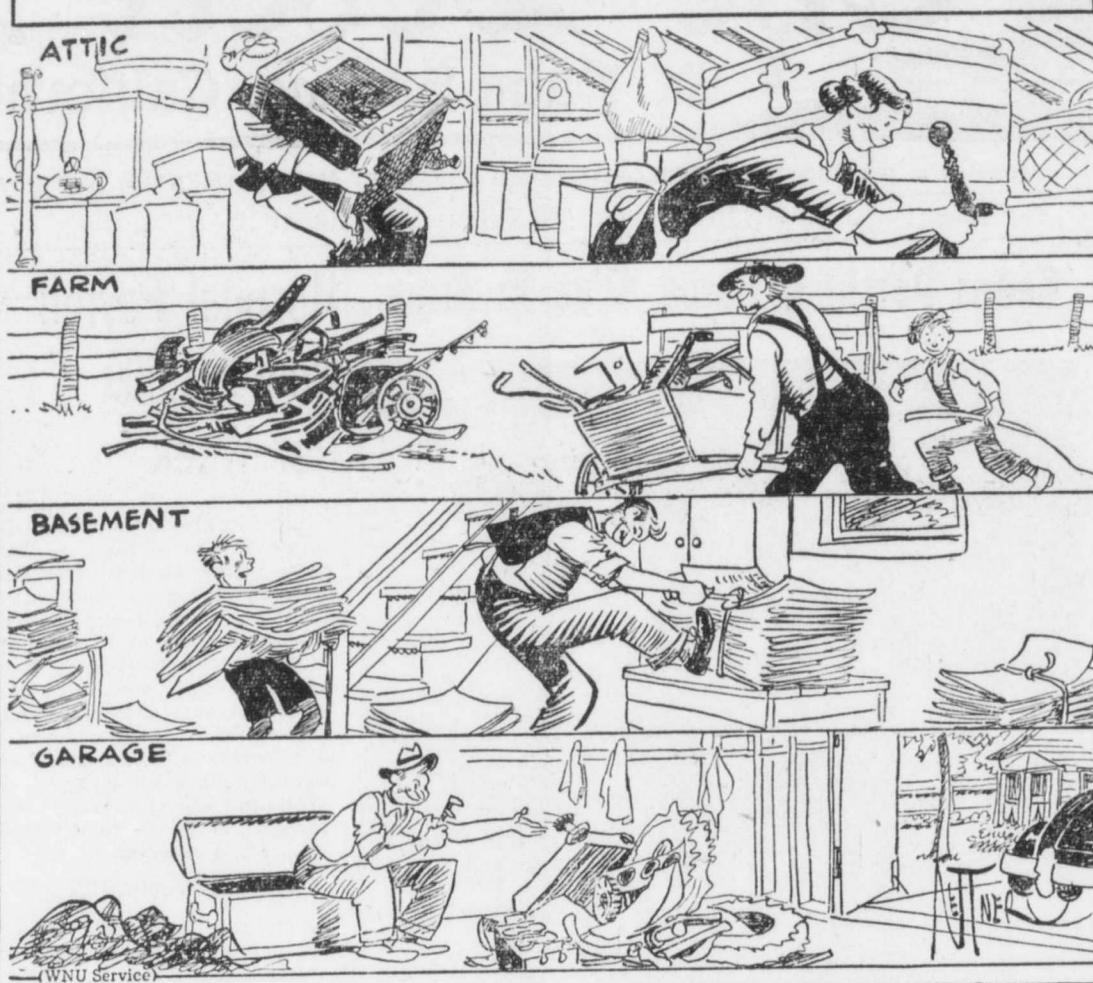

Among the Palm Springs people staying at Banning at the present time are the resort's efficient and hard-working mayor, Frank Shannon, and Mrs. Shannon, who arrived Monday from a trip to Colorado Springs.

Mr. and Mrs. Shannon have spent many summers in Banning and have many friends in the community.

If you'll line up with the crowd making the least noise, you'll be on the right side nine times out of ten.

Not only dogs suffer from rabies. Cases of rabies have been found among cats, swine, cattle and horses.

Pay Telephone Bills before the 30th and receive your discount.

National Treasure Hunt for Salvage**Cathedral City**

Lazy Acres in Banning is the summer home of Nellie N. Coffman. It's a lovely spot now, made so by its tireless owner. It's another case of choosing a proper location like the location of the Desert Inn was chosen, and then going to work on it until the newcomer would say it was the loveliest spot that money could buy. Last week the two local boards met at Lazy Acres to discuss school problems that are developing or may result from war conditions.

The thought came to me how many of the recent high school graduation class who listened to Mrs. Coffman speak to them would profit from her remarkable record. Surely democracy cannot survive unless a considerable proportion of the people give some of their time to their community in addition to the big job of making a living. Material success is a proper thing to strive for, but it is not the end.

Mrs. Coffman has given freely and generously of her time for entirely unselfish community betterment and at the same time conducted an outstanding success in business. The only moral to this is that more people must deliberately apportion some of their time as a free will offering to democracy and if their work does not extend beyond their home town then they will have done their part.

Cathedral City has a few who give generously, more who contribute lightly and far too many who, if they give, do so in a way not visible to the community. At that, I doubt if there are many communities of comparable size who accomplish as much. Still we would not mind counting in our midst a few of the Coffman capacity with the same urge to improve the community.

We just missed seeing Richard Craig in time last week to make mention that he was here on a short furlough from the army service to visit his parents, Mr. and Mrs. A. B. Craig. Richard looked very nice in his uniform.

A card from Jack and Kate Grove indicates Jack is feeling well enough to travel about and they had been down Mexico way.

We had previously mentioned that Mr. and Mrs. W. Koch had taken a cottage here and this past week Mrs. Koch's mother and her friend came out to visit these young people.

Despite the dearth of building material, Chester and Marie Ide are nearing their goal of having enough material to build their future home on their property on the Desert Cove Ranch. Jas. G. Jordan, Jr., also of the Desert Cove Ranch, has taken a cabin for the remaining hot months at Thomas Mountain. To the same destination this week went Christina Lillian and Agnes Pelton. Miss Lillian will return to the desert while Miss Pelton will remain at her cabin.

Dr. and Mrs. E. H. Brandt accompanied the Hillerys to Riverside last week and while there we saw C. S. Cobb, prominent merchant of Cathedral City. Riverside always seems a nice place because we generally see some of our home folks and many

county men who through the years we grow to know.

A letter from Mrs. Ida Weeber, who has been with the E. J. Wheelers at the Glacier Point Hotel in Yosemite, tells us what a glorious time she has had there and anticipates much more, as they were going on into the High Sierras to Wheeler's Glen Aulin camp.

A material supply tie-up prevents the completion of some of the adobe cottages being constructed at Rancho Mirage by Judge Francis Krull. We are sorry for the Judge but hope the government restrictions won't be lifted too soon (we are absolutely selfish) for the Judge has taken on two shifts of airplane observation. We need 'em.

In addition to a crew of ten U. S. Army civilian surveyors under the supervision of Mr. E. L. Cox, who have been living in our village for some time, there moved to Cathedral City this past week SP trainman A. H. Mulholland, with his family.

Mr. and Mrs. C. M. Geffert are back after a sojourn in the San Jacintos.

We were sorry to hear of the passing of retired minister Ernest J. McCartney, brother of Dr. John Robertson Macartney. Rev. Ernest, though in ill health for many years, endeared himself to many of us as a neighbor through the seasons he spent in our village. He took up painting desert scenes as a relaxation and like many others, showed remarkable talent in his amateur work. We shall miss this kindly man. Our

Rumored Munholland Doing Special Work for Government

John Munholland, prominent local realtor, spent a few hours in the village Monday enroute to Phoenix from his summer headquarters in Long Beach. Only recently he spent several days in San Francisco.

Some inkling as to the reason for these trips may be gained from a current rumor. According to this rumor, heard from many quarters, Munholland is now doing special work for J. Mortimer Clark, regional director for the real estate division of the War Department.

Clark is a former business associate of Munholland's, and at one time was California State Real Estate Commissioner.

sympathy goes to his brothers and other relatives.

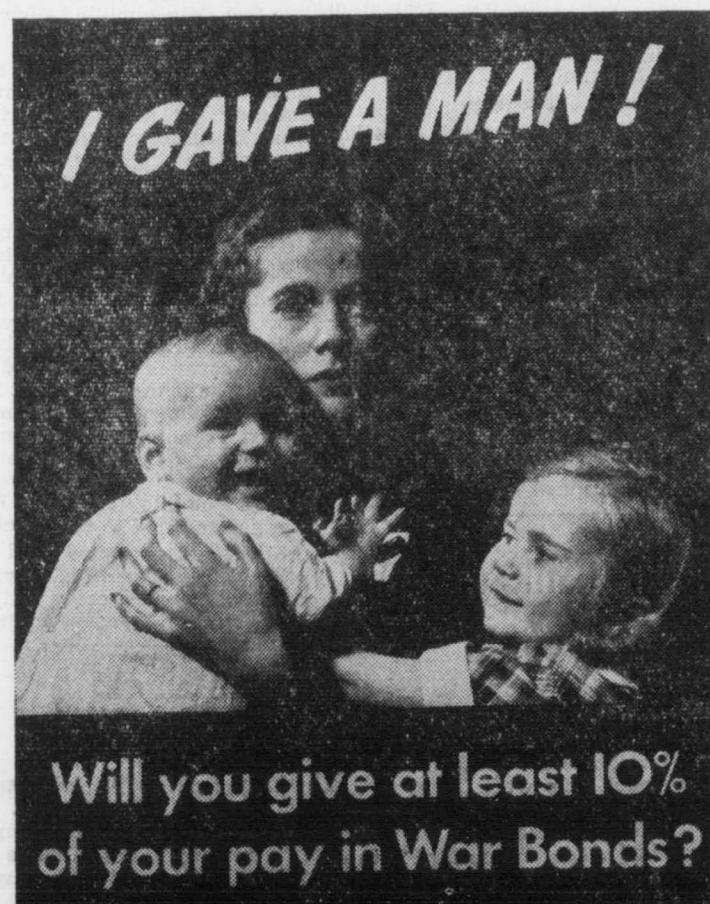

Late Wednesday night a light flash flood came out of Palm Canyon which only slowed traffic along a two-mile stretch of highway. Rancher A. H. Snyder, coming on duty at Cathedral City at midnight for the graveyard shift, on airplane observation reported crossing the wash with water to the running board. Rancher Mrs. Laura Carey, due at 4 a. m. for her watch, was not sure of the depth near her ranch home. By noon Thursday only a trickle was still crossing the highway and the maintenance crew had removed the mud.

Fight Blaze in Big Morongo Valley

A crew of fire fighters was dispatched from the Midway station to Big Morongo Valley, Sunday, to fight a blaze which started in that area and burned over considerable acreage before it was brought under control.

Assistant Ranger Charles Still of the state forestry service directed the fire fighting operations.

More Binoculars Needed by Navy

The "Eyes of the Fleet" have been strengthened to the extent of 1,654 binoculars loaned to the U. S. Navy by patriotic citizens, the Navy Department announced today.

California, with 287 binoculars accepted, was second only to New York with 381, in the number of privately-owned glasses now on duty with officers and men of the Fleet.

The binoculars were selected from among 6,000 which have poured into the Naval Observatory, Washington, D. C., in the four and one-half months since Secretary of the Navy Frank Knox appealed to binocular owners to loan them to the Navy for use in the war effort.

The supply of binoculars, however, is still far below the needs of America's expanding Naval forces. The lack of facilities and personnel necessary for the manufacture of precision instruments has virtually stopped binocular manufacture.

The Navy has designed two types—6x30 and 7x50 sizes manufactured by either Zeiss or Bausch & Lomb—as being the most acceptable because their large objective openings facilitate sea and air vision.

Persons desiring to lend such binoculars to the Navy for the duration are requested to pack them carefully and ship them to the Naval Observatory, with an identification tag, bearing the name and address of the sender, fastened securely on each instrument.

Owners of binoculars not meeting the requirements should address a letter to the Observatory, giving a complete description of the instrument in case the need for additional glasses outweighs the present restrictions.

All binoculars received are engraved with the donor's name and immediately issued to Naval vessels, with a request that the commanding officer inform donors of the name of the ships to which the instruments have been assigned.

Munhollands Leave Idyllwild for Long Beach

After having spent the past month at Idyllwild, Mr. and Mrs. John Munholland left for their home in Long Beach this week.

Munholland spent Monday in the village looking after his real estate business and talking to friends.

World's first postage stamp was issued by Great Britain on May 6, 1840. Known as the "Penny Black" to collectors, the issue is not as rare as others brought out years later.

DEER KILLED BY CAR ON ROAD TO RIVERSIDE

Some of the local hunters, who go in search of deer each year, will not have to burn up much rubber this season, judging from an incident which occurred at 3 o'clock Monday morning.

At that time R. J. Kohler of Los Angeles was driving along Highway 60 in the vicinity of the Jackrabbit Trail, when he struck a deer which ran in front of his car. He took the animal to John Laughlin, game refuge supervisor for the state fish and game commission, who explained the law required that any illegal game or fish be made use of by a public institution. Result—patients at the county hospital feasted on deer this week.

Ferry Command Seeks Bids For Housing And Feeding Pilots

Following criticism from certain hotel quarters of the fact it has been using one local hostelry exclusively for the housing and feeding of its pilots stopping over in Palm Springs, the Army Ferrying Command this week issued a call for bids for housing and feeding pilots for one full year in the village.

The call for bids was made through the facilities of the chamber of commerce at the direction of Col. Spake of Long Beach, who has control over the Ferrying Command base at Palm Springs airport. On Tuesday the Chamber of Commerce sent out letters to seven local hotels asking them to submit bids.

The chamber's letter was as follows:

Dear Sirs:

The Ferry Command is considering making arrangements for the housing and feeding of its men for the coming year. Lieutenant Herbert of the Ferry Command on order from Colonel Spake has asked the Chamber of Commerce to contact all those hotels who wish to submit a proposition for housing and feeding of these pilots. The requirements are as follows:

Rooms should be air-cooled in summer and heated in winter.

Food requirements are breakfast at 6 a. m. and supper from 7 to 9 p. m.

The number to be cared for is different each night. The Ferry Command will not guarantee a specified minimum number of pilots each night, though the total number to be cared for on any one night will not exceed one hundred. Colonel Spake would prefer to make arrangements with at least three hotels to divide up the maximum of 100 pilots, so that no hotel would have a maximum of more than 33 to care for.

The Ferry Command is interested in your submitting a year-around rate at so much per day for the above requirements to be effective for a full year. If you are interested, please submit your proposition to the Chamber of Commerce within five days from receiving this letter, as arrangements will be considered at the earliest possible moment.

Yours very truly,

JOHN R. E. CHAFFEY,
Executive Secretary.

Chaffey said this week that any hotel interested in the proposition, whether it has received a letter or not, should submit a bid to the Chamber of Commerce. Complete information can be obtained at the Chamber of Commerce office, 310 N. Palm Canyon Drive.

Mrs. Cherie Kinne Taken Quite Ill

Ill health forced Mrs. Cherie Kinne to leave Palm Springs and go to Los Angeles for the remainder of the summer. She is quite ill with bronchitis and is under the care of a physician and trained nurse.

While here she was actively associated with Dugout and USO activities.

Not That Big!

When Thomas Mann was visiting America for the first time, one of Hollywood's literati abased himself before the novelist, emphasizing that he was nothing, a mere hack, his work not to be mentioned in the same breath with that of the master. Mann listened with infinite patience and courtesy. But when the party was over, he turned to his host, an old friend, and said: "That man has no right to make himself so small. He is not that big."—Life.

OUR DEMOCRACY—by Mat

FIRE-AXIS ALLY

EVERY MINUTE OF THE DAY A BLAZE FLARES UP IN THE U.S... FLAMES DESTROY MILLIONS OF DOLLARS WORTH OF ESSENTIAL PRODUCTION FACILITIES... YEARLY, ACCORDING TO LIFE INSURANCE STATISTICS, FIRE TAKES TWICE AS MANY LIVES AS WERE LOST IN THE BATTLE OF GETTYSBURG. CARELESSNESS CAUSES MOST FIRES—IS RESPONSIBLE FOR MANY AN AMERICAN DEATH—THE LOSS OF MUCH NEEDED PROPERTY.

CARE SAVES AMERICAN LIVES—BUILDS AMERICAN POWER.

THE LUNG IRRITANTS

By DR. WARD L. MOULD
Medical Gas Officer, U. S. Office of Civilian Defense

(This is another in a series of six articles about war gases, their characteristics, and measures the civilian can take to protect himself against gas injury.)

Most of the known lung irritant gases are "non-persistent"—that is, they are quickly diluted by air to such an extent that they are incapable of causing injury. Chlorine, which has a pungent odor; phosgene, which smells like fresh cut hay; and chlorpicrin, which has a sweetish odor like fly paper, compose this group.

Of the non-persistent gases the one most likely to be used is phosgene. A moderate amount of phosgene in the area will cause a "catching of the breath" and a sense of tightness in the chest. Other than this momentary discomfort, the individual may have no symptoms for as long as twenty-four hours. If injury has been mild, there may be some increase in the breathing rate. The injured person becomes drowsy and may fall asleep, feeling refreshed on waking. He will probably experience some tightness in his chest and have a cough.

With more serious injury, breathing becomes more difficult and a bluish color may creep over the face, first appearing about the lips.

Lung irritants impair the ability of the lungs to absorb oxygen. To lessen the victim's need for oxygen, he must be kept at absolute rest, and must remain in bed for twenty-four to forty-eight hours, even if no symptoms develop.

If symptoms do develop, even those indicating only slight injury, the injured person must be cared for by a doctor.

With proper rest and hospital care, complete recovery will occur in nearly all lung irritant cases. Research shows that, contrary to the current public conception, those who recover from injuries caused by these gases are no more susceptible to pneumonia and tuberculosis than persons who have not been gassed.

Tear gas and sneeze and vomiting gas are non-persistent agents which may be classed as "Nuisance Gases." Symptoms appear quickly after exposure. Tear gas causes smarting and watering of the eyes. The individual should leave the affected area immediately, facing the wind and keeping the eyes open. Symptoms will quickly disappear. Eyes should not be rubbed or banded.

Sneeze and vomiting gases cause considerable distress of a temporary nature. Following exposure, the nose should be washed out with a solution containing a teaspoonful of baking soda to a glass of luke-warm water. This will neutralize the agent and reduce discomfort. If severely gassed with these types, a short period of bed rest is required.

WELWOOD MURRAY MEMORIAL LIBRARY

SCHEDULE OF HOURS

Tuesdays, Thursdays and Fridays, 9-12 a. m., 1-5 p. m.
Mondays, 2-5 p. m., 7-9 p. m.
Wednesdays, 9-12 a. m., 1-5 p. m., 7-9 p. m.

There will be no need to ration beef or pork. The price will take care of the situation.

John Spragues Summering at Banning

Busy this week moving into the house they have rented at Banning for the summer were Mr. and Mrs. John Sprague and family.

They have taken a place at 3489 West Ramsey for the warm months, planning to return to their home in Palm Springs early in the fall.

Ingrams on Month's Vacation

Enjoying swimming and beach sun-bathing at Laguna are Fred and Helen Ingram. They will be gone a month.

Fred, who is assistant cashier at the local branch of the Bank of America, writes his pals at the bank that he is thoroughly enjoying the cool ocean breezes and staying in bed until noon every day.

As to the occasional mountain-eer who never saw an automobile in his 90 years, things are getting along to a point where it doesn't matter.

STATE COMMANDER OUTLINES PLACE OF EACH DEFENSE UNIT IN THE DEFENSE PROGRAM FOR CALIFORNIA

The place of each of the various defense agencies in the defense program is clearly outlined by Major General W. C. Sweeney, commanding all military forces in California. Each has its own specific mission to perform in a coordinated program of defense under the direction of the supreme military commander, Mr. Sweeney says.

First comes the federal forces, Army and Navy, under the direction of their experienced leaders. They are responsible for the prosecution of the war against the enemy. The army is the ruling force in all land operations and its demands and requirements must be met. There must be no conflict in the operation of the military forces of the state with the operations conducted by the army.

Second is the State Guard of California, consisting of an active and reserve force. The authorized active duty strength of the State Guard is 7,000 officers and enlisted men. It is a full time active military force whose primary duty is the guarding of vital installations, thereby relieving the combat army from such duties and standing ready also to serve as may be required by the army in its military operations.

The reserve has an authorized strength of approximately 14,000 officers and enlisted men. It may be called out in case of insurrection or invasion, and it is highly desirable that these reserve units be maintained at full strength. These are located chiefly in metropolitan areas and cities and should constitute a center for military training for any who desire to avail themselves of it.

State Militia

The third unit is the State Militia, which, strictly speaking, is a home guard force whose primary mission is to protect isolated areas and utilities from sabotage by individuals or from attack by small bodies of the enemy that may have arrived behind the main defensive forces by parachute landings or other means. The primary mission is to cooperate with and be of assistance to the civilian defense agencies, the State Guard and the Army.

The Civilian Defense Agencies, consisting of both active and auxiliary police forces, sheriff's posses, firemen, block wardens and others, are established in metropolitan areas, cities, towns and villages. Their primary duties are to preserve the peace, to prevent and extinguish fires, to control the conduct of people during blackout periods, to direct traffic, and to perform other duties for the defense of their community.

The Feminine Touch

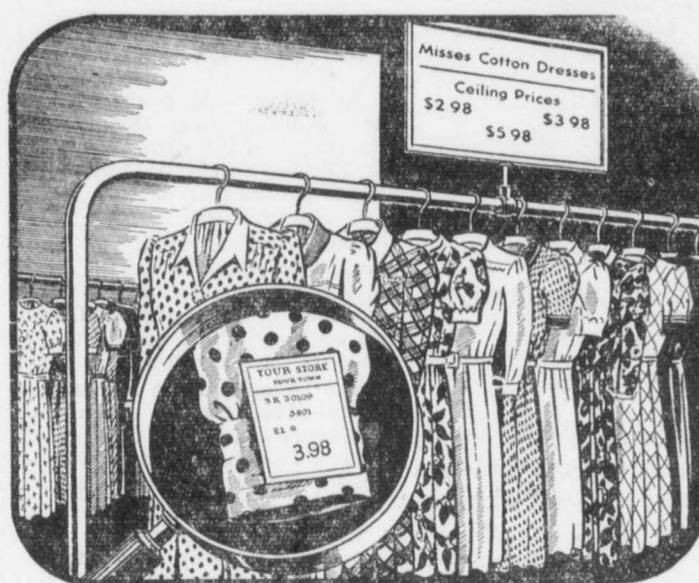

The technique of women porters in dealing with non-tippers seems to be more delicate than the men's. This example from Lancashire takes some beating.

A woman porter phoned for a taxi for a passenger, then took his luggage outside and loaded it on the cab when it arrived. The passenger got in and was about to drive off, leaving the porter with no tip, no "Thank you," not even her tuppence back. She stopped the driver.

"What's the matter?" demanded the fare irritably, looking out of the taxi window. "Forgotten something?"

"Ay, Ah have an' all, sir," was the reply. "Ah ne'er paid for t' taxi."—Answers.

How to Display Ceiling Prices

Where articles in different price-lines are physically mixed, ceiling prices may be displayed by price-lines if article is marked by asterisk in Appendix B of Regulation. In addition, the selling price must be shown on each individual item. This applies, for example, to dresses, suits, coats, shoes and shirts.

Nearly every bomb shelter in Malta is equipped with electric lights and radio.

Nearly 200,000,000 money orders are issued annually by the U. S. Postoffice department.

Newlyweds Take House at Solana Beach

Lt. and Mrs. H. B. Dunn, Jr. (Camilla Sanard), have now taken up temporary residence at Solana Beach so he will be close to his training center. At present Lt. Dunn is stationed at Camp Callan.

Neblett Makes Campaign Visit To Palm Springs

In the village Wednesday doing a little campaigning was Riverside county's handsome district attorney, John Neblett, who stands for re-election this fall. He called on a number of influential Palm Springs men.

Mrs. Steffensen Here Tuesday

In the village Tuesday to make final arrangements to close their home was Mrs. Steffen Steffensen.

She reports that both Mr. Steffensen and Preben are busily employed in the defense industry near Los Angeles. They have made Palm Springs their home for the past six years.

Don't confuse your social security card with your sugar card, and don't hand a cop your selective service registration card when he asks to see your driving license.

NOTICE

TO MY FRIENDS AND CUSTOMERS:

Due to a defense contract I will be unable to do any private civilian work for 60 days.

RETAILERS FOR VICTORY

War is replete with paradoxes—of which the Victory Luncheon of 1000 Retailers for Victory at the Palace Hotel in San Francisco provided many samples recently. The retail executives ranged from chiefs of metropolitan stores to proprietors of modest one-man village shops—yet no man talked of his own business, his war problems, his merchandise curtailments and priority difficulties. Every man who attended is in business to make money through selling—yet no speaker said a word about making a dime. The men worked to organize the greatest concerted sales campaign in California's history—yet not a single article of merchandise on a single shelf of any retailer's establishment was to be moved in the campaign.

The men were met to form plans to speed the Retailers for Victory program for selling war bonds and stamps through all retail channels. And perhaps the strangest paradox was the fact that each merchant, while acting solely as agent for the Treasury Department, felt that he would be selling in his own personal interest the most precious commodity. In every bond sold by him he would be retailing safety for his country, his business, his home, his life and the lives of his family against the unspeakable tragedy that befell France.

In France the stores sold only luxuries and comforts—while the enemy prepared for the kill. In France the people failed to convert their cash income into armaments—as America now knows she must do to survive.

Only the customer may profit financially in this sale—for the customer will receive all of his money back with generous interest in years to come. Another paradox, that! But each Retailer for Victory will work harder than ever he did in a sale that rang the cash register of money profit. For never again in his life, he knows, will he sell a thing so priceless as a U. S. war bond.

Mary Bischoff And Don Cameron Married at Yuma

Surprising their many friends and acquaintances, Donald G. Cameron and Mary Bischoff, both of Rancho Mirage, motored to Yuma Wednesday of this week and were married.

Cameron has resided in and around Palm Springs for the past eight or nine years. He is tract manager at the Rancho Mirage development, 10 miles east of here on the Indio road.

Her home in Terre Haute, Indiana, Miss Bischoff came to California last winter and rented a home at Rancho Mirage for the season, where she and Don met and soon became friends.

Mr. and Mrs. Cameron will spend the summer at Rancho Mirage, as Don's business requires his presence there. Due to the activities of the army in this area, Rancho Mirage is experiencing considerable real estate activity, especially rentals, Don reports.

Now at Home In Long Beach

To their home in Long Beach for the summer this week went Hortense Murray and her mother, Mrs. Marian Trimble.

Mrs. Murray will be greatly missed by the hostesses and service men at the Dugout, as she has given many hours every day to that enterprise while she was here.

Return From Trip To Northern California

Back in Palm Springs after a month's vacation spent in Northern California are Dawson and Vona Goff.

They are at present spending some time at Banning, as are their parents, Frank and Ma Goff.

What's a quick way to shift a conversation if she asks, "How do you think I'd look in slacks?"

Cut flowers keep best at near-zero temperatures.

To Don and Mary

May we give voice
To something that radiates JOY.
Well, Don and Mary got married,
They couldn't wait the three days;
Went to Yuma and got SPICED.
In PALM SPRINGS on Wednesday
The day after Don proudly waived
The Marriage Certificate with gusto,
And Mary smiled her HAPPINESS.
So let's all say to Mary and Don,
May all your troubles be LITTLE ONES,
And the JOY OF LIFE,
Where LOVE reigns supreme,
Bring to you both LONG LIFE,
Prosperity and HAPPINESS.

The "Padre of the Peaks" gives his blessing.

(Editor's Note: The above poem concerning the marriage this week of Don Cameron and Mary Bischoff was written by their close friend, Judge Francis Krull.)

"I Rise to Remark"

By SENATOR JOHN PHILLIPS

There are columns in this paper which tell about more interesting things than receipts and expense and taxes; and it is not even particularly interesting to write about them.

It would be more interesting to tell what is happening to the hardware business, and why, just as I told about the wholesale flower business, which was a California specialty. Or why I, for one, think that milk will be rationed within the year, and this is an important California industry. Our herds are now being sold because Washington lacks understanding, and perhaps leadership.

It is necessary to think about government incomes and expenditures and taxes, for the future of California may well rest on these additions and subtractions.

When Chief Justice Marshall said that the power to tax was the power to destroy, he gave us something to quote frequently, and think little more about. What he really said was the "power to tax carries with it the power to embarrass and destroy." The trouble with this form of destruction is that it is not sudden. Pearl Harbor was sudden destruction, and aroused the nation to unbelievable action. Destruction by spending more than we take in is not sudden, but is also effective.

The year before World War I the Federal Government took in \$4 billions dollars, and spent a

little less than that. The national debt was 1 1/4 billions.

During that war we increased our expenditures to a top of 18 billions in one year, and the national debt went to 25 1/2 billions, yet one year after the Armistice we were again spending less than we took in, and the debt was going down.

For eleven straight years we took in more than we spent. The debt went down to 16 billions. Then the "depression" came. We started again to spend more than we received. Depressions usually last four or five years. But for 12 straight years, we have now spent more than we have taken in, for the "ordinary expenses of government." This is not for war costs, mind you, but for ordinary running expenses.

When we reached a comparable position to World War II; that is, in 1941, we were taking in 7 1/2 billions, spending 12 1/2 billions, and the national debt was 49 billions. Compare this with expenditures of less than one billion a year in 1916, and a debt of 1 1/4 billions.

We project, for the present year, a debt of 110 billions, of which 77 billions is already incurred. We talk of expenses of 58 billions a year.

I rise to remark that I do not object to spending money to win this war. I do object to the apathy with which people accept the

DeVines Take First Vacation In Four Years

For the first time in the four years they have been in Palm Springs, John and Connie DeVine are taking a much-needed vacation at Blue Jay.

They remained here all summer in years past to keep DeVine's Market open to accommodate their many customers.

idea that governments can continue year after year to spend more than they take in.

Total tax collections in California for the year which began two weeks ago will be over 2 billions. This is about \$300 per capita, roughly \$1000 per family; about one-third the assessed valuation of the state, and about one-third of the incomes of its people.

This condition is serious. Government must recognize that fact. Expenses and services which we have come to accept as necessities, but which previous generations never even dreamed of as government luxuries, must be adjusted to this war condition.

We can have either luxurious and extravagant governments in Sacramento and in Washington, or we can have a successfully concluded war and a safe, even if debt burdened future. We can't have all these things, and retain representative government.

Lions Club Defeats Hospital Officers In Bowling Contest

The unrelenting Lions, less than two weeks after they had trounced the army men in a nightball game, added insult to injury Tuesday night by again conquering the officers from the Torney Army General Hospital, this time in a thrilling bowling match.

Star of the match was Milton "Speed" Hicks, who showed good form and displayed a fine brand of bowling.

Bowling for the Lions Club were: Jerry Sanborn, Bill Leonzio, Milt Hicks, Seigel Raymond and Joe Henderson.

The line-up for the officers was as follows: Capt. Andrews, Lieut. Ward, Lieut. Matlock, Lieut. Wanat and Lieut. Barr.

The competition was held in the air-cooled Palm Springs Bowling Academy.

Big Jim Maynard On Two-Week Pack Trip

It looks like a mighty lonely vacation for big Jim Maynard, officer on the police force.

His vacation started Wednesday and he will spend the entire two weeks prospecting, "just my mule and I."

Cloudburst Blocks Pines-to-Palms Road for 2 Hours

Sections of the Palms-to-Pines highway were blocked Wednesday when a heavy cloudburst hit the eastern watershed of the Santa Rosa mountains. The flash flood waters threatened to wash out sections of the highway a few miles south of the Anza road intersection.

A number of motorists were held up for more than two hours while road crews cleared away debris.

The heavy volume of water rushing into small canyons and gullies carried tons of soil and rocks onto the highway.

U. S. O.

By RUTH SUMMERS

In the Camp Haan hospital I once heard a soldier remark: "I think my morale has improved since I came here because they treat us so well." "Yeah," called out another, "the USO and everybody forgets all those boys out there on the desert."

These two had come from Bicycle Lake. Well, USO at Palm Springs is not forgetting the boys on the desert. USO knows that a high morale is one of the most essential elements of a victorious army, and USO is going to do what it can to help keep the morale of our boys high.

Saturday Night Party

During the past week Hospital-ity House has proven its name. Saturday a party—arranged by Muriel Fulton. The usual swimming, dancing and barbecue—but unusual people. Girls from Hollywood, Harry Ravel, Pat and Patsy Moran, Betty Beaton and George Stone under the gracious escort of Mrs. Edward G. Robinson, Mrs. Douglas Corner and Mr. Adrian.

The girls, fifty of them, were friends of Betty Lasky, Jesse Lasky's daughter. They were gay, young, good dancers, good swimmers, and proved intriguing partners for the boys. The latter, also, seemed quite eager to improve their acquaintance with Mrs. Robinson, who was often seen dancing with an enthusiastic partner. The music and dancing were on the tennis court, and George Stone, acting as master of ceremonies, called to the mike-shy young starlets who said, "hello, thank you, it's a privilege"—and Patsy Moran sang colorful comedy hits and Betty Beaton entertained with a humorous dramatic reading. Pat Moran arrived a little late, so he obliged Sunday morning at the impromptu luncheon swim. His skillful pantomime, soft shoe, and acrobatic dancing proved unique and vastly entertaining.

Officers, Too

It is impossible to say all that should be said about the party. The boys expressed their approval by lingering until long after

Pay Telephone Bills before the 30th and receive discount.

All-Out For a Friend; Or How "True-Blue" Feelings Saved A Pal's Scalp—or Somethin'

Gordon Feelings is a chap who will do anything for a friend, he likes to work and he loves Palm Springs.

You add up these three facts, students, and you get the answer to the problem of why Gordon left his beach cottage about a week ago, during the heat wave, came down to Palm Springs (when even the sidewinders were getting outta town) and went to work in a friend's "sweat shop" (Apologies to Johnny.)

Here, boys and girls, is the real life Damon and Pythias story of how "Good Samaritan" Feelings is suffering to help out a friend in need when he could just as well be sitting in the cool surf sipping a tall beer (yum yum).

The friend in need is none other than our good city councilman, Johnny Connell, who was swamped with rush orders for sheet metal work some 10 days back and at the same time was behind the eight ball for tinsmiths to get the work out.

One night Johnny decided it was about time he sat down and wrote a letter to his old pal Gordon Feelings, who was spending the summer at Long Beach with his parents and sister. In the letter Johnny casually mentioned his dilemma concerning the labor situation.

A day or so later, who should come strolling into the J. M. Connell Co. but friend Gordon, dressed in his old clothes and all ready to go to work.

Now Gordon, who incidentally owns the Village Sandwich Shop Cafe (Don't forget this publicity plug, Gordon, when you start placing your advertising next fall), is a cook, and a darn good one, and he's a fair to middlin' guitar player. But he didn't know beans about sheet metal work. Be that as it may, our hero rolled up his sleeves with the cheerful remark, "I'll soon learn," and went to work.

A week later, none the worse for wear with the exception of a few callouses, blisters and tin scratches, not to mention a slight case of prickly heat, Gordon is an experienced tinsmith—almost.

As soon as he gets the J. M. Connell Co. plant back on its feet and all caught up with the contracts (Gordon thinks this will take him about 10 days more), our hero, true blue Feelings, plans to rejoin his family at the beach for another couple of weeks for that greatly delayed dip in the surf. He will return to the desert about the 15th of August to get his Village Sandwich Shop (Don't forget that ad now!) ready for its opening early in September.

"dips" Many officers and their wives attended from El Mirador and the hostesses were happy to greet Col. and Mrs. Jones, Capt. Von Buskirk and several officers from the Desert Training Center circulated about and appeared to enjoy the entertainment.

Harry Ravel was most generous and his desire to serve by entertaining the boys is marked by deep sincerity. They never tired of listening to his piano and marveled that he had written so many songs.

Presents Gifts

Mrs. Robinson brought several dozen avocados, which, ripening behind the bar at USO, are mystifying many of the Eastern boys. She also caused quite a furor by presenting USO with some gay "Hollywood" bathing suits. The swarthy, hardened men of the armored forces form a strong contrast to the bright flower patterned blue and white suits. But they like them. I even have a request from a soldier who insists he must own one to take on his furlough.

Open House

Tuesday, July 14, many officers and their wives and children attended the open house at USO. The pool was found an excellent place for the children to swim and the club room resounded with their laughter. Cool drinks and refreshments were served in the evening and during the after-

Desert Tea Relieves Heat Fatigue, Says Worker

Bob Cox of Long Beach is one workman at the Torney Army General Hospital who isn't suffering from the heat any more, thanks to Lawrence Crossley, long-time Palm Springs resident.

Cox came here recently from the beach city, just in time for the big heat wave. Accustomed to the cool coastal climate, he soon began to feel the effects of the hot weather. Over-heated by his work, he became fatigued and ill.

Seeing his dilemma, Crossley, who gathers and packages a native herb called desert tea which grows in this region, came to his rescue. Crossley went home, brewed a supply of his product and brought some for Cox to drink. Soon, the youthful worker was feeling much better and pursued his job with gusto. Now, Cox reports, the heat no longer has any terrors for him.

This desert tea that Crossley packages and sells is an old home remedy in the desert regions of California. The old-timers used it for kidney trouble and other ailments, also as a general tonic.

noon guests enjoyed pool and bridge.

It is hoped that many more officers and their families will make the USO Tuesday "open house" a weekly event in the social program.

For Enlisted Men

We are happy to announce that Elizabeth Merry is formulating plans for a Wednesday evening open house for enlisted men and their families. Swimming, tennis and dancing will be the order of the evening for the men and their wives. So don't forget next Wednesday evening.

Many Visitors

Included in the important events of the week were visits from Ray Jones, national USO official; Kenneth Beam, regional representative, and Mr. Gossom, desert coordinator.

Man-Mountain Dean, now a sergeant, who accompanied our well known friend, Captain Von Buskirk, seems to have startled the boys with some trick shots on the pool table.

Hospitality House is developing its talents and will have more to divulge next week.

Cottons For Play

White, tubbale, scrubbable cotton broadcloth was used to make this sunsuit worn by Maureen O'Hara, well-known film star. The halter design was borrowed directly from grandmother's pinafore with its so-flattering ruffles. The shorts are of the new longer length.

YELLOW CAES—PHONE 4444

USDA WAR BOARD WILL CONDUCT SCRAP METAL DRIVE AMONG THE FARMERS OF RIVERSIDE COUNTY

A comprehensive drive for farm scrap metal is being launched this week by the Riverside County USDA War Board under the direction of H. L. Roberts, chairman. Scrap metal is vitally needed to provide arms for our men in battle. Most drives in the past have been conducted for the benefit of city dwellers only, whereas Mr. Roberts pointed out that quite probably no other group of persons were in as favorable a position to contribute to a drive of this type as farmers. The War Board is mailing an individual letter to each farmer in the county asking their cooperation in this matter and asking that they fill in a reply card and return it to the War Board immediately.

Wrecking trucks equipped with acetylene torches, derricks, and other equipment will be put in the field to dismantle any old machinery the farmer may have. These crews will work under the direction of the farmer and two piles of scrap will be accumulated from the dismantled machinery. One will be strap iron, angle iron, bolts, gears and other salvage material, which the farmer may desire to keep for repair purposes; the other will be scrap metal for which he has no further use. This latter pile will be bought or accepted as a gift by a pick-up truck which will follow the wrecking truck. Portable scales will be furnished for weighing and the farmer is assured that his scrap is going directly to the Federal Government. If he sells the scrap, he will receive a check directly from the Treasury Department, or if he donates it, he will receive a receipt from the Treasury Department stating that he has donated his scrap to the Federal

Hospital Workman Draws \$50 Fine On Traffic Charge

As the aftermath of a little Independence Day celebrating, Jack Quinn, who told Palm Springs police he resides at Hatchitt's Court, was fined \$50 by Judge Guy Pinney on Tuesday of this week. Half the fine was suspended.

The charge against Quinn was reckless driving and failure to stop for boulevard stop signs. The offense was committed on South Indian avenue on the afternoon of July 4, according to police. Quinn said he works at the Torney Army General Hospital.

Government.

It is hoped that everyone will reply to these notices as scrap is badly needed and the trucks will be glad to pick up any scrap, no matter if it is five pounds or five thousand pounds.

Hennes at Banning While Druggist Goes Down Grand Canyon

Matt Hennes, who has served many a resident of Palm Springs as a pharmacist at the Village Pharmacy, is helping out a fellow druggist, E. A. Hudson, proprietor of the Angelus Pharmacy in Banning.

Mr. Hudson, pursuing his hobby of amateur photography, left Banning Monday for Lee's Ferry, Arizona, from which point he started a 300-mile journey down the Colorado through the Grand Canyon with eight other men. The journeyers down the Colorado expect to come out on Lake Mead about the first week of August.

Meanwhile, Mr. Hennes is serving on the staff of the Banning drug store.

BANKAMERICANS ARE SERVING ON THE "FIGHTING FRONTS"

10,152

BANKAMERICANS ARE SERVING ON THE "HOME FRONT"

Today, on the fighting fronts... in the Army, Navy, and Marine Corps... are 1,325 Bankamericans. With each day that passes this number grows.

On the home front... working and serving and saving... are 10,152 Bankamericans. And every day this number grows smaller as more men are called to the colors.

Bankamericans...like the men and women workers of other great California institutions...like all Californians are first and last Americans...ready to sacrifice, ready to serve.

(The above is only a partial list of the Palm Springs men now serving in the nation's armed forces. If you know the names of any local men who have been left out, turn them in at The Desert Sun office and they will be added to the PALM SPRINGS' HONOR ROLL in the next issue of this newspaper. Also The Desert Sun will be sent free of charge to those whose correct address is furnished.)

OPEN FORUM

The opinions expressed in this column do not necessarily reflect the views of the editor. Practically all newspapers publish a column in which readers are allowed to express their own opinions, even though they in many instances are contrary to those of the editor. In the future, contributions to this column must be limited to 400 words.

To the Editor,
The Desert Sun:

A tribute to the ground observers of the Aircraft Warning Service.

As one who has only recently taken up the duty of ground ob-

server, I want to express my appreciation of the fine work of the patriotic men and women who are doing this absolutely essential work. And they have been doing it since the service was organized.

They are definitely the eyes and ears of the Army and the importance of the work they are doing, cannot be over-emphasized.

The sacrifices they are making are terrific. When hard-working men and women use up their precious rubber in driving to the observation post and then stand their watch in the cold of winter and the heat of summer, they are paying the last full measure of their devotion to the Country.

All Hail and God Bless them.

ROY W. ASHBROOK,
Lt. Col. U.S.A. Retired.

Substantial Cut in County Taxes Predicted By Chairman of Board

A reduction of at least 40 cents in the county basis tax rate was predicted this week by Chairman Ralph W. Stanfield of the county board of supervisors, as the board continued working with the budget. According to Mr. Stanfield, the cut may be more than the 40 cents added last year, when the county was considering the purchase of land for the munitions depot, which later went to San Bernardino county. The basis rate for last year was \$2.22 per \$100 of assessed valuation. If Mr. Stanfield is right, the basis rate for 1942-1943 will not be in excess of \$1.82.

Two causes for the decrease in tax rate was noted by Stanfield. The first is the balance left from last year, including the \$167,000 budgeted for the purchase of the land for the munitions depot, which caused the 40-cent increase last year.

The second cause is the \$3,300,000 increase in assessed valuation of property. Taking into consideration the anticipated 10 percent tax delinquency, each one cent of tax rate will raise more than \$8000 in revenue.

The anticipated cut in the tax rate is based on the budget as it now stands and does not include any reductions in the budget, which the supervisors may make between now and when it is finally established in August. It is also based on the county's anticipated 10 percent tax delinquency although the delinquency has been under that percentage in recent years.

Importing Labor For Harvest Asked By Senate Group

The question of obtaining farm harvest labor from outside the United States to prevent further spoilage of crops was discussed last week by the state senate's interim committee on economic planning at Sacramento, with Senator John Phillips of Banning, a member of the committee, attending. President Roosevelt is being requested to act quickly by the committee, State Senator Robert Kenny, chairman, announced.

Witnesses at the hearing urged relaxation of immigration laws so that Chinese laborers could be brought from Cuba and South America to help with California's farm harvest.

The evidence received by the committee is being forwarded to the President, the committee's chairman announced. Along with it goes a request for prompt action so that labor may be imported before the peak of the California harvest season is reached.

Miss Finchy Leaves For Los Angeles

Always here for the greater part of the year in conjunction with being the principal of the grammar school, Miss Katherine Finchy left this week for Los Angeles.

September always finds her back for another strenuous year.

Laval has a personal body-guard of eighteen Gestapo officers. It was thought that such a busy man should be protected from the attentions of autograph-collectors.

They Have Now!

One day while Marshall Field was still a small merchant he received from a little town in Iowa an order for 200 pairs of overalls, signed "P. H. Browne."

Grateful for this handsome piece of business, Mr. Field sent a pair of his finest overalls to the customer, with a note reading: "Wear these yourself with my personal compliments. Marshall Field."

A few days later he received a reply: I cannot wear them, however, until styles change. Respectfully, Patricia Helen Browne."

The Poet's Corner

MT. SAN JACINTO

Mt. San Jacinto, pride of our Southland!
Rising from desert sands to heights sublime!
Moulded and shaped by, infinite forces
Nature's devices, through eons of time,
High above foothills, dim-outlined and peaceful,
Catching each morning the first sunny ray,
Ever your rugged lines upward are pointing
Wearing a roseate crown at close of day.

Standing majestic through tempest and sunshine
Cloudburst and earthquake through years long gone by,
All have left beauty in deep shadowed caverns
And water cascades; a delight to the eye.

Only the Indian has discovered your secrets
As the Great Spirit speaks to his race,
Ours yet to fathom your mysteries hidden,
Ours to profoundly your artistry trace.

—Alice Gibson Hornby.

Legal Notices

IN THE CITY COURT OF THE COUNTY OF PALM SPRINGS, STATE OF CALIFORNIA.
PALM SPRINGS BUILDERS SUPPLY COMPANY LTD., A CORPORATION, PLAINTIFF VS. LOIS KELLOGG, JOHN DOE, JANE DOE, DOE COMPANY, A CORPORATION, DEFENDANT.

No. 118.

ALIAS SUMMONS

Te Alieps of the State of California send Greeting to: Lois Kellogg, John Doe, Jane Doe, Doe Company, a corporation, defendant:

The above named plaintiff having brought action against you in the City Court of the County of Palm Springs, County of Riverside, State of California, held at Palm Springs, California, by filing a complaint therein:

YOU ARE HEREBY DIRECTED to appear and answer the said complaint within ten days after the service on you of this summons, if served within the county in which this action is brought; or within thirty days, if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

GIVEN under my hand and the seal of the City Court of the County of Palm Springs, County of Riverside, State of California, the 18th day of June, 1942.

(SEAL) GUY PINNEY, Judge of the City Court of said City of Palm Springs, County of Riverside. s48-4

Walter Melrose, Attorney.
NOTICE TO CREDITORS
ESTATE OF EARL THOMAS SAUSSER, Deceased.

NOTICE IS HEREBY GIVEN, by the undersigned, Hal Sausser, Executor of the Estate of Earl Thomas Sausser, Deceased, to the creditors of, and all persons having claims against the said deceased, to file them with the necessary vouchers in the office of the Clerk of the Superior Court of Riverside County, California, or to exhibit them with the necessary vouchers to the said Hal Sausser, at the office of his attorney, Walter Melrose, 720 Grant Building, Los Angeles, California, which place is designated as the office of said Executor, in the County of Los Angeles, within six months after the first publication of this notice.

Dated at Los Angeles, California, June 19, 1942.

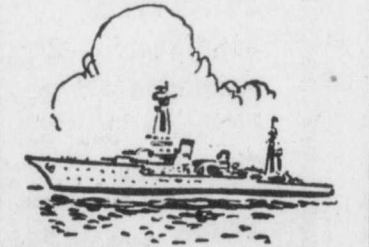

HAL SAUSSER, Executor of the Estate of Earl Thomas Sausser, Deceased.
WALTER MELROSE, Attorney for the Executor.

The average depth of the ocean is about 13,000 feet, or two and one-half miles.

When high in the sky, the moon will appear larger if you lie flat on your back to look at it.

What You Buy With WAR BONDS

Navy Cruisers are built in two classes, light and heavy, the latter displacing about 10,000 tons. Our navy has about an equal number of light and heavy Cruisers, the 10,000 ton Cruiser costing approximately \$20,000,000. Many Cruisers are under construction and many more are needed.

To pay for these speedy and powerful ships with their heavy guns and armament we must buy War Bonds. Citizens of a large town or a given community, working in unity, could buy one of these ships for the Navy if they put at least ten percent of their income in War Bonds every day.

U. S. Treasury Department

By Carl Barkow

If expenditures of each of the local governments of Riverside county for the 1942-43 fiscal year were reduced an average of 10 percent below the \$8,171,655 total expenditures for 1940-41 fiscal year, a saving of about \$817,000 would be made, says the California Taxpayers Association.

Nearly a million dollars would be saved the taxpayers, which they could use to buy war stamps and bonds, or to help the Red Cross, U.S.O. or China Relief.

The county supervisors could cut the county tax rate 25 percent and still have sufficient revenue for county government expenses, for the county has a large surplus, \$167,000 of which was created through a 40-cent tax to buy a site for an airplane repair depot, that was never purchased.

County indigent relief went down 31 percent from last July to May 1 of this year, and more and more people who were receiving county relief now have jobs. Many others can be supported by members of their families who have fat defense jobs.

It is imperative that every individual who can work should do so now to the limit of his ability and endurance. This war can only be won by hard work, fighting and sacrifice. No one should be supported in idleness unless he or she is physically unable to work.

We haven't begun in earnest to finance the war. Every penny of unnecessary non-war expenditure must be saved. Every branch of government, federal, state, county, city, and district, can effect some savings, in order to enable the taxpayers to meet their federal war expenditures. It is true that governmental agencies must pay more for the things they have to buy because of increased cost of commodities, but there are many things that are not needed at all for the successful prosecution of the war or for civilian well being.

Some one called this newspaper office on the telephone Saturday and asked us to advise residents to keep their garden hose out of the sun. Said he: "Drain the water from your hose when you are through using it and put it in a dry shady place." I might add, when your garden hose is worn out, you probably won't be able to get another one.

Warring interests have finally come to their senses down Fallbrook way in San Diego county and decided the valuable waters of the Santa Margarita and San Luis Rey rivers must no longer run to waste into the Pacific ocean. The controversy over water rights of the Santa Margarita river was said to be the longest court battle of its kind in the history of California. However, the urgency of conserving every natural resource brought about by the war evidently brought both sides of the controversy together and they decided there is enough water for all if they only conserve it, whereas heretofore neither side got very much. The Fallbrook Enterprise just announced that with the aid of the Army, a dam will be built across the Santa Margarita river near DeLuz, and another one probably at the location of the high bridge across the San Luis Rey river on the Fallbrook-Escondido - Oceanside highway. These vast storage reservoirs on both sides of Fallbrook should make that frostless area the garden spot of America and Fallbrook a booming city.

Ward Grant, editor of the Indian News, bewails the fact that there are not enough girls in India, for he points out that at the last dance given for Camp Young soldiers in Banning 175 girls were present, while the USO dance at Indian brought out only 40 girls and the previous week only 14.

I was planning on visiting Senator Phillips one of these days, but after reading about the Senator in Homer King's column in the Hemet News, I have decided I'd better postpone the visit until I can get a gun or a body guard. According to Homer, most Republicans are bad hombres, but Senator Phillips is the most vicious of them all. It's strange that we who have known Phillips all these years haven't discovered that, but if Editor King is correct in his deductions it's simply another case of a bad, bad bandit being a respected citizen in his own bailiwick.

Editor Chester Cline of the San Jacinto Register has discovered the prize-winning rattlesnake. He tells of a San Jacinto man finding a huge rattlesnake near Valle

U.S. Marines — by Krieb

USO LEASES BUILDING OF MWD FOR SERVICE MEN'S RECREATION

Work of Remodeling To Begin This Week With Early Opening Planned

A lease has been signed between the USO and the Metropolitan Water District for the use for the duration of the MWD building on South San Geronimo avenue as a USO headquarters and recreation center in Banning for men from desert camps.

A representative of the Y. M. C. A. who visited the MWD building this week stated that work of remodeling it will begin within a week.

It is planned to remodel as soon as possible the building, installing showers and other equipment for the benefit of service men in the desert camps. Previously it had been announced that as many as 3000 men might be taken to Banning for weekends.

The lease was signed at the regular meeting of the Metropolitan Water District board which is once a week on Fridays.

Vista, and, believe it or not, the snake had a blue ribbon tied around its neck.

"If every town in the country the size of Blythe had turned in as much salvage rubber as was collected here, retreading factories could reupholster every casing in the nation," says Editor Grady Setzler of the Palo Verde Valley Times. However, the record made by the little town of Cabazon is not to be sneezed at, for there the 100 inhabitants gathered 24,000 pounds (12 tons) during the first 10 days of the rubber campaign, 240 pounds for every resident. If Blythe had done that well it would have contributed about 325 tons instead of 80. It isn't the intention to belittle the efforts of Blythe, which probably stands among the highest in the list of small towns of the country in the matter of salvaging rubber, but we would not be surprised to hear that Cabazon has made a national record.

Editor Roy Miller of the Arlington Times consoles those of us who cannot take vacations this year: "If you don't wear yourself out having a good time while taking your annual 'rest,' you won't be too tired to do your work when you get back home."

Even some of us who haven't had a vacation this year are too tired to work, which is proved by this column today. I found it would be much easier, and incidentally an improvement, to steal ideas from the weekly newspapers of the county than to do any real serious thinking on my own. Inasmuch as I don't expect to take a vacation, no promises of personal improvement are being made. After all, no one except the proofreader have to read this, and it is probably a relief to them to get a change of diet.

"Amen"—Says the Linotype Operator.
"So Be It"—Says the Proof Reader.

It requires at least a year to train carrier pigeons for the work of transporting news photographs.

Film on Air Raid Duties To Be Shown Wardens

Officials of the American Legion have joined with the State Council of Defense in launching a program designed to facilitate the training of air raid wardens in Riverside county.

Under the plan, the State Council of Defense at Sacramento advised Chairman Frank B. Shannon, Palm Springs Defense Council, a newly devised slide film graphically depicting the duties of wardens during an enemy attack will be exhibited at local wardens' meetings by American Legion experts.

The state defense agency termed the program, developed by the Legion in cooperation with the State Council of Defense and the ninth regional office of civilian defense, "an excellent aid in warden training."

Chairman Shannon was advised that District Commander George Boldin of Thermal would cooperate with local councils of defense throughout this district in presentation of the program.

The reason for Hitler's sour look is because he wakes up on the wrong side of the channel every morning.

John F. Hobson Dies at Summer Home in Banning

John F. Hobson of Chicago, Ill., Palm Springs home owner and a summer resident of Banning, passed away Tuesday night at the Redlands Community Hospital, where he had been taken that afternoon by his friend, Mayor Frank Shannon on advice of his physician, Dr. John Austin. The deceased was a native of

Ireland. He was born March 16, 1889, and came to this country in 1892. He had been Western manager for the Union Switch and Signal company for over 50 years before his retirement. He had been in poor health for over two years.

He is survived by his wife, Mrs. Margaret Hobson, and two sons, James Hobson of Pittsburgh, Pa., and John, Jr., who is here with his mother. Mrs. Hobson's father, E. A. Allen, came from San Clemente Wednesday to be with her.

The Hobson family resided in Pittsburgh for many years.

CANADA HAS 4,000 AIRWOMEN

Smart and serviceable are the new uniforms of the R.C.A.F. (Women's Division). This summer uniform (above) is a washable shirtwaist dress of blue fabric, with a six-gore skirt and brass buttons. The sports uniform is light, practical and attractive, as this photograph (at right) of a shapely, young airwoman demonstrates. The uniform is in a soft grey-blue shade, the shorts of fine cotton twill and the pullover of knitted cotton.

SUMMER uniform for the Royal Canadian Air Force (Women's Division) is a blue shirtwaist dress, bearing the insignia and brass buttons worn on the tunics of airmen of equal rank. It is modeled by Alicia Morris of Montreal, formerly on the staff of a large department store, now Airwoman, Second Class, in training for the trade of equipment assistant. In that trade—which involves dealing with air force stores and equipment—as in other capacities of which cook, hospital assistant, transport driver, parachute rigger, meteorologist, office worker and waitress are only a few, women of Canada are enlisting to release manpower for more strenuous duties, notably that of aircrew. Taking the W.A.A.F. of the R.A.F. as its pattern, the women's division is part of the Royal Canadian Air Force, and not an auxiliary. Its members enlist as men do, and go on active service after thorough training which varies in length according to trade. To enter the ser-

vice, a woman must be between eighteen and forty-one years of age, of medical category "A1B" or higher (equivalent to army standard A), at least five feet in height, of good character, with a minimum educational requirement of high school entrance and the ability to pass an appropriate trade test. Training is carried on at women's division training depots, followed by courses at specialized schools, and on graduation airwomen are posted to stations of the R.C.A.F. There, they are accommodated in women's division barracks blocks, and share mess halls with airmen of equal rank. Starting in the autumn of 1941, with nine trades, the women's division now has twenty-seven. Its officers, who hold the King's commission, are drawn from the ranks—most of them graduates of the first training course—150 women who, enlisting in October 1941, formed the nucleus of a division which is now nearing the four thousand mark.

U. S. Faces Greatest Peril of Its History, Says Loyal Kelley

Attorney Loyal C. Kelley, who is experiencing the heartaches of the present war more than most men, for he lost one son in the battle of Java and another is serving in the Marine Corps, gave in a recent speech his opinion of what America and the rest of the freedom-loving world is fighting for.

Mr. Kelley is candidate for the office of district attorney, but he didn't mention that fact. His talk was strictly non-political. "The United States never faced a greater peril than it does now," he said. The Anglo-Saxons were the first and most persistent exponents of personal liberty, but it was not until the Declaration of Independence was adopted by the Continental Congress that a concrete platform of human liberties was achieved. It proclaimed equality of human beings to opportunities, and law. It was finally accomplished in the Bill of Rights, the first 10 amendments to the Constitution, which was not ratified by all the colonies until the Bill of Rights was also adopted.

The principles of Liberty and Justice for all, including the freedom of speech, freedom of the press, freedom of religion, and trial by jury, became so firmly established, that nearly every country of the world has adopted the same or a similar platform, said the speaker.

Now a new philosophy of government has sprung up in Europe, as proclaimed by the dictators. It says the state is master and the individuals are slaves. It says the dictator is father of the people, but he has become the slave-driver. It denies all the freedoms included in our Bill of Rights, the Constitution and the Declaration of Independence. It denies the sacredness of the home and declares the children belong to the state. It is the negative of Christianity, he added.

Mr. Kelley stated the United States is not a Democracy. It is a Republic. Democracy, a Greek word, means the people rule. A republic is a government by representation. We elect by popular vote the men and women to govern us.

Liberty is never able to guard itself, Mr. Kelley said. We must fight for it again and again, whenever some dictator springs up and threatens our liberties. We must guard it in our own government, and elect to office only such men who will insist we shall not be deprived of our freedoms, men who can rise above party politics. He called attention to the coming congressional elections and admonished his audience to consider carefully for whom they vote.

Bob Peterson Back From Vacation

Expected back Monday from an airline trip to New York state is City Clerk Robert Peterson.

Leaving Palm Springs on July 9, Peterson flew East to join his wife, who is spending the summer with her sister at Chappaqua, N. Y.

Judge Guy Pinney took care of the city clerk's business while the latter was on vacation.

Men in Service Can Get Desert Sun Free of Charge

Every Palm Springs man in the nation's armed forces can receive THE DESERT SUN free of charge by sending this newspaper his complete name and address. This will enable the boys to keep in touch with the village and see what their friends at home are doing.

If you have a friend or a son in the service, and he is a local boy, give us his name and address and we will start sending THE DESERT SUN to him immediately. Or, if you are a young man about to enter the service, come in and give us your address before you leave.

Whenever a local man in the service is transferred from one camp to another, it is necessary that we be informed of his change in address if he is to continue receiving his DESERT SUN.

Death Smites

(Continued from First Page)

er Charles Norman Raley, pastor of Our Lady of Solitude church, and burial was in the local Indian cemetery.

Never Married

Ramon never married, and he is survived by no close relatives. However, he has one or two second and third cousins living here.

Mrs. Lorne Welmas, friend and distant relative of the deceased, made all the arrangements, and the funeral was handled by Wiefels & Son mortuary of Banning.

The death of Ramon Manuel leaves 53 Indians in the Agua Caliente tribe.

Plan USO Program

(Continued from First Page)

the 24th there will be a food sale at the Campfire Program. The food will be auctioned off. And this week of gaiety will be climaxed by a grand parade on the 25th, the Wild West show with twelve entries, in which will be shown some beautiful horses, a barbecue dinner at six and at 7:30 quadrilles in which Western clothes are preferred.

Greg Esgate is in charge of the many activities taking place at the Inn. Mr. and Mrs. Dean Plaister are treasurers. Mr. and Mrs. Gordon Nicholson are on committees with Mr. and Mrs. Jack Williams.

Highlights of the week are the parade, in which a tank, a jeep, and a peep, will participate, and the Wild West show which is organized by Beth and Ole Chase, promises to be a real thriller. Many Palm Springs people are expected to come to Idyllwild.

Pay Telephone Bills before the 30th and receive discount.

Are you entitled to wear a "target" lapel button? You are if you are investing at least ten percent of your income in War Bonds every pay day. It's your badge of patriotism.

FINED \$50 FOR HAVING BEER ON RESERVATION

Arrested after complaints that he was disturbing the peace of the desert and found to have liquor in his possession while on an Indian reservation, Cornelius O'Keefe, 48, of 314 North Indian avenue, was fined \$50 Monday by Federal Commissioner Alva D. McGuire.

O'Keefe, who came to Palm Springs from El Monte to work as a steamfitter at the Torney General Hospital, was taken into custody at 9:30 a. m. Sunday by Palm Springs police officers Hill and Lux at the hospital.

His landlady had complained that he sat out in front of her house drinking beer, talking loud, and making a lot of noise, thus keeping her awake.

Police officers found that O'Keefe had the beer in his possession when they arrested him. They placed the charge of having liquor in his possession while on an Indian reservation against him. He was turned over to Johnny Martin, Indian police officer from the Morongo Indian Reservation at Banning.

At his hearing before the Federal Commissioner, O'Keefe pleaded guilty and was given the option of paying a fine of \$50 or serving 30 days in jail. He chose the fine.

TWO POUND SUGAR BONUS AVAILABLE

Distribution of a two pound sugar bonus to ration card holders began Friday in Palm Springs stores and will continue through August 22. The extra allotment of sugar was permitted by Federal rationing officials after a survey of stocks in warehouses had convinced them that there would be ample sugar to make this provision.

For the extra two pounds, War Ration Stamp No. 7 must be presented. The regular rationing will continue, with Stamp No. 5 good to July 25, and Stamp No. 6, good from July 26 to August 22.

Village Officials Motor Out-of-Town On City Business

Off to Redlands and San Bernardino for the day Thursday went City Manager Arthur Bailey, Chief of Police Lyle Sanford and City Superintendent of Streets Jerry Sanborn for the purpose of making a survey of the civilian defense control centers in these two cities.

The three local officials spent the day studying the set-up of these control centers, conferring with Redlands and San Bernardino city officials and otherwise gathering information to be used in planning and constructing Palm Springs' new civilian defense control center, now in process of being installed in a second floor room of the fire station.

"Dug Out"

By RUTH SUMMERS

Everett Lilley stood dangling the heavy ice tongs as he talked. "Well, I just figured that was something I could do. If we will all just do the things we can, it will help a lot." And it will.

He had filled the ice box as usual and I had just discovered that he delivered ice to USO and the Dugout at cost price, it being his contribution.

Many Gifts

Cookies, confections and flowers have been received this week with ovations of gratitude. Mrs. Bill Davidson has been making delicious date bars and ice box cookies and I am told that one night when they were brought in they disappeared as if by magic. Mrs. Fleta Wroughton of the Desert Garden Date Shop sent in stuffed dates and confections fit to grace the most demanding tea table and tempt the most fastidious. Our boys enjoy eating things that look good. Thank you, Mrs. Wroughton. A big bouquet of zinnias was nice this week. Flowers are getting scarce but the addition of a few plants, bright pepper berry plants brought in by Mr. and Mrs. Quigley, help maintain the cool, inviting atmosphere of the Dugout.

Mrs. Murray Leaves

It was with regret that the hostesses read a farewell note left by Hortense Murray. She is spending a few weeks with her mother in Long Beach but is trying to arrange her plans to return very soon to Palm Springs and her work at the Dugout. She has given of her time graciously and generously. Her presence at the Dugout will be greatly missed.

Dugout Needs

The Dugout needs: a broom, a large pitcher, a cooler, a cooler, a cooler; we still can't use the play room for lack of one.

Palm Springs Man Appointed Major In State Guard

A. A. Guyer, who only a few short months back was a second lieutenant in Palm Springs' own Company, M of the California State Guard and was manager of Hatchitt's Court, last week was advanced to the rank of major and is now in command of the 3rd Battalion, 5th Regiment of the C.S.G.

Considered a capable military man, Major Guyer is being advanced rapidly. This is the third promotion he has received since December 7.

Villagers Dine At Green Shack

The Green Shack at Banning is becoming increasingly popular with villagers, affording them a chance to cool off and at the same time giving them a delicious meal. Among the crowd there Tuesday evening were Jack Gorham with Dolly Alexander; Jane Lykken Neel and party.

At a large table Mary Ives entertained for a group of friends including her sister, Linna Maria Thomas, Jerry and Margaret Shill and Harold and Marcelle Barkow.

Honest Man Returns Card and Hopes it Can Be Used Again

Honesty extends even to small things, a wise man remarked.

Having no desire to use anything that was not rightfully his, a former employee of The Royal Palm Hotel returned one of the hotel's colored picture postcards complete with message and stamp.

The message, which he wrote in pencil (presumably since it could then be easily erased), expressed the hope that the card could be used again.

Unfortunately the stamp, which carried the card back to the Royal Palms from Mineral Wells, Texas, does not seem to lend itself to salvage since the postoffice, as is its wont, cancelled it.

And in so doing left its mark on the card. Also, the stamp is scarcely a collector's item since it is of the common, or garden, variety of green one-center.

A supply of the cards is kept in the hotel lobby, Earl Gray, owner of the Royal Palms, has never made it a practice to check them over and see to it that they are used exclusively by the hotel's guests. He was indeed surprised when he received the picture of his hotel with this message on its back:

"Can't understand how this card got in my possession. Never did take anything that didn't belong to me. Sure hope you can use it again."

It was signed by Homer Forshee, the former employee.

Forshee returned to Palm Springs after the postman had

delivered the card back to Gray. He immediately came in to see the hotelman, apologized for carrying the card away in his luggage and expressed again the hope that the hotel or one of the guests would be able to use the card.

Gray agrees with the wise man that honesty extends to small things.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

Adolph, Benito and Hirohito—the three blind mice. Make them run with ten percent of your income in War Bonds every pay day.

A&P FOOD STORES

OWNED AND OPERATED BY THE GREAT ATLANTIC & PACIFIC TEA CO.

BUY WITH CONFIDENCE! Est. 1859

Come to the Town's "Salad Garden" Right in Your A&P Market!

Plan delicious, vitamin-rich salads—in your A&P Market! Here are fruits and vegetables hours fresher because we buy them direct. And here's taste-tempting Ann Page Salad Dressing—exclusive with A&P! A&P customers buy more of it than all other dressings on our shelves combined! No wonder! It contains more of the finer ingredients, egg yolk and oil . . . so it's creamy-smooth and extra delicious. Here's How To Use the Bayonet

Master Gunnery Sergeant Jesse L. Reynolds, bayonet instructor at the San Diego, Calif., Marine Corps Base, demonstrates the proper method of withdrawing from a bayonet thrust. Sergeant Reynolds has trained thousands of Leatherneck recruits like these in the use of the bayonet.
